Public sector apprenticeship target

1st April 2018 to 31st March 2019

The Department of Education has set a target for public sector bodies with more than 250 employees in England to employ on average at least 2.3% of their staff as new apprentices from 2017 to 2021. A new apprentice can include both existing employees who start an apprenticeship as well as newly employed apprentices. The target will be assessed as an average over the timeframe.

The submission for the period 1 April 2017 to 31 March 2018 has been uploaded to the National Apprentice Service portal.

This document provides a summary of the information submitted at the Data Publication Section of the return and has been compiled in conjunction with the guidance document entitled "Meeting the Public Sector Apprenticeship Target: Statutory guidance for bodies in scope of the Public Sector Apprenticeship Target".

Therefore, in the period 1 April 2017 to 31 March 2018, new apprentices made up 2.0% of the overall workforce numbers within The Four Stones Multi Academy Trust. This is 0.3% less than the target of 2.3%. However, the MAT is continually recruiting apprentices to ensure it meets the public sector apprenticeship target.
